

 **Kusama Parachain**

Spiritnet / Mainnet

**Sporran Wallet**

- V1: Manages KILT coins.
- V2: Stores and presents credentials. Enables on-chain and off-chain DIDs and customized service endpoints.

**Stakeboard**

- Staking platform for KILT Coins. Integrates with Sporran wallet.

**SocialKYC**

- Attests social attributes and issues credentials.
- V1: email and Twitter; gradually adding more social channels (Discord, GitHub, Twitch).

**DIDsign**

- Sign documents with your DID.

**Virtual Credential Organizations (VCOs)**

- Autonomous decentralized model for building businesses on KILT blockchain.

- Polkadot Liquidity Mechanism, a fundraising system for the ecosystem.
